## Q: WHAT DO YOU LIKE BEST ABOUT JURYSYNC?

**A:** The JurySync team is comprised of some of the most impressive, educated, and hard-working individuals you could imagine. At the same time, they are also warm, caring, and down-to-earth. It's a rare combination and makes being part of this team extremely special.

## EXPERIENCE

Lauren is a skilled legal strategist, having worked as a white-collar criminal defense and commercial litigation attorney for eight years. In this capacity she worked on high-profile government investigations, qui tam suits, antitrust matters, securities litigations, and contract or other business disputes.

Lauren returned to school to pursue an advanced degree in Applied Psychology at the University of Southern California where she focused her studies on human decision-making, cognition, emotion, and group dynamics.

Before joining JurySync, Lauren served as a researcher at Harvard Business School, focusing on research topics such as leadership, teams, and psychological safety. Lauren also worked in a small boutique consulting firm specializing in crafting fully customized surveys on behalf of organizations to provide data-driven solutions to such issues such as employee engagement.

These vastly different experiences have shaped Lauren into a well-rounded professional and allows her to offer unique perspectives and skills to JurySync clients.

## ROLE

Lauren leverages her training in psychology and experience as a litigator to help JurySync clients strategize more effectively, better understand juror decision-making, and achieve desired outcomes at trial.

## EDUCATION

Lauren Modelski earned her JD from the University of Chicago Law School. She is currently completing a Masters in Science in Applied Psychology at the University of Southern California. She also has a Bachelors of Science in Psychology from the University of Illinois, Urbana-Champaign Honors College where she graduated summa cum laude.
